

# Maksym Teutuliak

## Data Scientist

✉ max.teutuliak@gmail.com

☎ +380684390082

📍 Lviv, Ukraine

in [temaksym](#)

## Skills

---

Python | Machine Learning | Scikit-learn | Jupyter Notebook | Pandas | SQL | MySQL | PostgreSQL | Data Visualization | Tableau | Matplotlib | Data Extraction | Web-scraping | API | BeautifulSoup | Git | Excel

**Languages:** English C1 | German B1

**Soft skills:** critical thinking | storytelling | team player | curiosity | adaptability

## Experience

---

There were several Data Science related projects done while taking the Main Academy course:

- Flat rent prices prediction machine learning model along with data collection.  
(Tools used: *python, scikit-learn, BeautifulSoup*)
- Dashboard in Tableau for detecting advertisements with the least ROI values for more efficient investing in marketing.  
(Tools: *Tableau*)
- Development of an algorithm for detecting similar topics for a news website. (Tools: *python, scikit-learn*)

Automated real-estate data collection from the Ukrainian marketplace, also created an algorithm to parse addresses from descriptions using regex.

(Tools: *python, BeautifulSoup, regex, linux*)

Took part in a Bootcamp at Brno Masaryk University and had the opportunity to practice with NLP models and fine-tuning pre-trained models to classify restaurant inspection grades using description of the inspection.

(Tools: *python, scikit-learn*)

## Education

---

Finished Data Science course

by Main Academy association

January 2023 – April 2023

Currently a student at

Lviv Polytechnic National University

2022 - 2026 | Lviv, Ukraine

**Relevant courses:** Statistics, Programming, Linear Algebra, Math Analysis
